MEET Mo's Crib, an eccentric, Pretoria-based home décor brand redefining sustainable luxury. It was co-founded by sisters Monique and Michelle Mokone, and Monique won the *Red by Uweu Chic* quest title in 2023, a programme celebrating visionary women across the world. This South African powerhouse specialises in high-end, eco-friendly homeware and decorative pieces. Their products are practical, timeless, and inspired by nature. What makes Mo's Crib truly special is its revolutionary approach to upcycling. With a core mission to conserve the environment, the company transforms discarded materials into functional art. Their signature range includes planters, woven baskets, and cane furniture like the classic Malawi chair. All handcrafted by local artisans using natural fibres and repurposed PVC pipes. info@mo.s.co.za
